## D3 TECHNOLOGIES Earns Autodesk Consulting Specialization

D3 TECHNOLOGIES provides consulting expertise for the manufacturing industry.

**Springfield, MO - May 17, 2011** - D3 TECHNOLOGIES, lean engineering specialists for the manufacturing industry, announced today that it has earned the new Consulting Specialization designation for value added resellers from Autodesk, Inc., a world leader in 3D design, engineering and entertainment software. As an Autodesk Consulting specialized partner, D3 TECHNOLOGIES has shown that they continue to make significant investment in their people, they have a solid consulting business plan, they have referenceable customers, and that they offer a high level of knowledge and support to customers in the manufacturing industry.

The new Autodesk Partner Specializations enable partners to highlight and brand their expertise in delivering services in key industry areas. By completing the required curriculum and training, as well as meeting required levels of service and standards set by Autodesk, D3 TECHNOLOGIES continues to demonstrate through their strong customer service and support in sales what it means to be a trusted advisor to Autodesk customers throughout the world.

“Our continued focus on consulting and process improvements shows that D3 is providing our clients with tools, processes and support from the very beginning of a project to the end. We are excited that Autodesk now offers the Consulting Specialization certification so that we can communicate to our clients what we do best,” says Kevin Schlack, president of D3 TECHNOLOGIES.

### **About D3 TECHNOLOGIES**

Focused 100% on manufacturing, D3 TECHNOLOGIES, a lean engineering consulting firm, provides solutions to help increase engineering efficiency. Founded in Springfield, MO, D3 also has locations in Kansas City, MO; St. Louis, MO; Tulsa, OK; Oklahoma City, OK; Little Rock, AR; Memphis, TN; Wichita, KS and Denver, CO. D3’s mission is to provide its customers with the highest quality services and solutions so that they can receive an optimized return on investment from their engineering departments.
