## Industry News

**Autodesk Replaces Suites with Industry Collections.** This week, Autodesk began issuing a notice to its customers. It reads, in part: On August 1, 2016, we will introduce Autodesk industry collections and end the sale of Autodesk Design & Creation Suites. Industry collections will provide you access to a wide selection of the essential Autodesk software for your profession. They will offer immediate access to new technology, cloud services, and several licensing options... [read on >](#)

**The Future of Making Things Begins Now.** We're living in a time when the speed of change is faster than it's ever been, and there are no signs of it slowing down. The amount of technological advancement that once occurred over the course of years is now happening in a fraction of that time. And this too is the case in the world of manufacturing.
